Do not upload my projects to online manga readers.
My projects must remain free of profits.

People like Han Hye-Ri piss me off. She's one of those who act all good and innocent on surface.
You can't really badmouth those out loudly.
So, I bullied her a bit for fun. But she was so naive and passive that she made the whole thing worse.

I suppose you approached Cha Jin-Sub to isolate Hye-Ri completely.
But that didn't work out.
They aren't as easy as you thought, are they.

Blue ... what's wrong with me?
But ... who's side do I need to stand on? I need to go ?!

Please, I promised Gor n not Taeyu.

Crey
